

October 8, 1969

Alcine S. Grillot
South Dayton Dump
1975 Springboro Road
Dayton, Ohio 45439

Dear Alcine:

Your request to waive the requirement for engineering plans for a solid waste disposal site is granted since you do not intend to operate a solid waste disposal site after December 31, 1969.

However, if you change your plans for 1970 you will be required to submit and have approved engineering plans prior to issuance of a 1970 license to operate a solid waste disposal site.

Sincerely yours,

RAV/jf

Robert A. Vogel M.D.
Health Commissioner

MONTGOMERY COUNTY
HEALTH DEPT. Sept. 2, 1969

Dear Sir:

I received an order from John H. Bindeman, Tuesday Sept. 2, 1969, by Certified mail Stipulating I should stop burning on the landfill site. I do not operate a landfill operation and have not landfilled since about 1955. We do not accept household trash or restaurant trash.

I have stated to you, Mr. Binderman, and Dave Peden, we would only accept items that can be burned.

As you know I have reduced the volume of the material, and cater to the Industry in the general area, brush, wood, woodwepalets and Industrial wastes.

Sincerely yours

Aloine Grillet

RECEIVED

Dr. Robert Vogel
Health Commissioner
Montgomery County Health Dept.
325 W. Second Street, Dayton Ohio

MONTGOMERY COUNTY
HEALTH DEPT.

Dear Sir;

In regard to your letter of Sept. 25, 1969, on the completion of Engineering plans for the South Dayton Dump, we are not going to operate a solid waste disposal site in the terms of burning paper, wood and other unburned rubbish and wastes.

As of January 1, 1970, we will only accept dirt, concrete, fly ash, brick, incenerator ash or other unorganic material which the Board of Health will approve.

I have checked as to the cost of engineering plans and have estimated costs of approximately \$4,500.00. This cost plus a \$500.00 permit to the Board of Health would be an investment of \$5,000.00.

I did invest \$500.00 for a permit in 1969 but as I stated with our operation it was only a donation as we did not plan on operating a Land Fill.

We would request at this time that the requirement for engineering plans be dropped for the remainder Of 1969.

Sincerely yours,

Alcine S. Grillot
Alcine S. Grillot
South Dayton Dump

ASG/dag

★ Alcine had called and made this statement. I asked him to submit this in writing. I believe it would be appropriate to allow the request, stipulating if he changes his mind plans must be submitted to application.

COMMENTS AND RECOMMENDATIONS:

1. All burning on the landfill site must cease. Open burning is not permitted.
2. All exposed material shall be compacted and covered with earth or foundry sand at a required finished cover depth of two feet to prevent unsightliness and insect and rodent harborage. In addition, a comprehensive program of rodent elimination is required as described in previous correspondence.
3. On December 31, 1969, your landfill permit expires. Solid waste as defined by Sec. 3734.01 of the Ohio Revised Code may not be accepted for disposal after this date.

GUIDELINES FOR PROPER OPERATION OF AIR CURTAIN DESTRUCTOR

1. That the air curtain destructor shall be operated properly and used for burning only wood.
2. That wood shall be carefully fed to the air curtain destructor so the wood is burned in the pit below the air curtain.
3. That the ash shall be removed from the air curtain destructor as necessary and the ash shall be covered to prevent blowing.
4. That the air curtain destructor shall be kept in continual good repair (air volume, air direction, pit dimension, and operating temperature shall meet design specifications).
5. That a salvaging operation shall be permitted under the following conditions:
 - a. All waste paper shall be cleaned from the salvage area and placed in the waste container by the end of each day's operation.
 - b. All waste wood shall be burned in the air curtain destructor by the end of each day's operation.
 - c. All cardboard shall be removed from the property or stored in enclosed trucks or containers at the end of each day's operation.
 - d. That blown waste paper, plastic, etc., shall be cleaned up at the end of each day's operation.
 - e. That the volume of solid waste salvage material accepted shall be regulated to insure a., b., c., and d., can be complied with.

LANDFILL

1. Only dry inert industrial, commercial, or household material may be accepted. Any garbage or other solid waste that requires daily cover must be rejected.

Re: Proposed Landfill Site
Lot 3277
2089 South Broadway
City of Moraine

Dear Mr. Cornett:

Your letter dated June 7, 1976 indicated you wish to fill Lot 3277 in the City of Moraine with, "dirt, concrete, asphalt, and other debris". The first three (3) items you list are classified as not being inimical (harmful) to the public health and are therefore exempt from the requirements of a license under the Ohio Solid Waste Disposal Act (Section 3734.01 to 3734.11 ORC). However, the term other debris is too vague to make a decision on.

This department has no objection to the filling of this property, if the following conditions are met:

1. That only dirt, concrete, and asphalt shall be used for filling; and
2. If you wish to fill with other non-inimical wastes, that we shall be contacted and give a written approval before they are accepted; and
3. That the entrance shall be secured with a gate or cable to prevent unauthorized dumping; and
4. That if unauthorized dumping of any solid waste material does take place, it will be immediately removed to the county incinerators or a licensed landfill. (Solid wastes are defined by Section 3734.01 (E) of the Ohio Revised Code, "SOLID WASTES means such unwanted residual solid or semisolid material as results from industrial, commercial, agricultural, and community operations, and includes garbage, combustible and non-combustible material, street dirt, and debris."); and

Re: Landfills

Dear Frank:

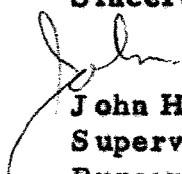

O

In reply to your January 25, 1979 letter, we do make approximately monthly visits to the South Dayton Landfill. Less frequent visits are made to this landfill since they are prohibited from accepting any garbage or other putrescible material. Since they have little or no cover material, they are permitted to accept only dry inert industrial, commercial, or household material.

P
Y

We have checked with our attorney concerning the release of Mr. Pennino's letter and are sorry we cannot send you a copy. Since we neither sent the letter nor officially received a copy, we recommend you seek a copy from either James Pennino at the Ohio Environmental Protection Agency, Southwest District Office, 7 East Fourth Street, Dayton, Ohio 45402 or Mr. Gerald Miller, owner of Miller-Valentine Corporation, 2445 East River Road, PO Box 744, Dayton, Ohio 45401.

Re: Solid waste disposal

Dear Mr. Gilmore:

We recently learned that you are transporting white plaster dust from the Ohio Precision Castings, Inc. and disposing of it in your foundry sand disposal site on Brandt Pike. In addition we learned you anticipate transporting fly ash from Cargill, Inc. to this same site.

The Ohio EPA has determined that both these industrial wastes are "solid waste" and therefore must be disposed of in a licensed landfill. Your foundry sand disposal site is not licensed.

The fly ash can be taken to any licensed landfill that can handle it. In Montgomery County the following sites which are suitable:

1. North Sanitary Landfill, 4220 Pinnacle Rd., Moraine
2. Powell Road Landfill, 4060 Powell Rd., Wayne Twp.
3. South Dayton Landfill, 1975 Springboro Pike, Moraine
4. Moraine Materials - Dryden Rd. Complex, Rear of 3265 Dryden Rd., Moraine
5. Moraine Materials, Hurt B Pit, Farmington Rd., Miami Twp.

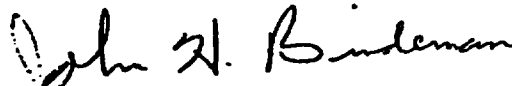

The white plaster dust may only be taken to the first three licensed landfills in Montgomery County.

Mr. Russell A. Gilmore III
March 24, 1980
Page Two

This letter shall be considered an official order to dispose of all fly ash and white plaster dust in a licensed landfill within seven (7) days. Authority for this order can be found in Section 3734.05, Ohio Revised Code.

If you have questions concerning this order, please call 225-4443.

Dayton, Ohio 45439

OFFICIAL ORDER

Dear Mr. Grillot:

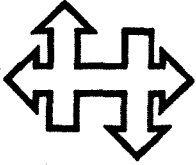

On January 3, 1990, Tom Hut and Tracy Graef of the Combined Health District of Montgomery County conducted an inspection of your demolition disposal site located at 1975 Dryden Road.

Our inspection revealed an area near the front of the fill on which fly ash is being dumped. Demolition debris was also observed, however, there was no evidence of any solid waste on the site. Although you were previously given authorization for disposal of demolition material at your site, recent changes in the solid waste disposal regulations will require you to obtain new approval from Ohio EPA. Ohio Administrative Code (OAC) 3745-27-13(A) states that, "No person shall, without prior authorization from the Director, engage in filling, grading, excavating, building, drilling, or mining on land where a hazardous waste facility or solid waste facility was operated. As a previously licensed solid waste disposal facility, this rule applies to your site. A copy of this rule is enclosed for your information.

Until such time that authorization from the Director of Ohio EPA is granted for the disposal of exempted solid waste material, you are hereby ordered to immediately cease accepting any waste for disposal at this site. In order to continue your practice of disposing demolition debris and fly ash at this site, the requirements set forth in OAC Section 3745-27-13(C) must be met.

Failure to comply with this order may result in further legal action taken against you. Failure to provide the required information to the Director within thirty (30) days will result in the assumption that this site is permanently closed and must meet all closure requirements set forth in OAC 3745-27-10.

DIVISION OF ENVIRONMENTAL HEALTH

February 20, 1990

Mr. Alcine Grillot
2708 Kreitzer Road
Dayton, Ohio 45439

Dear Mr. Grillot:

This letter is a follow up to our meeting on February 15, 1990. As it was explained, changes in the Ohio solid waste regulations now prohibit any disposal or excavating activities from occurring on top of a previously operated landfill without prior approval from the Ohio Environmental Protection Agency (OEPA).

Under that premise, you must cease accepting fly ash until you have obtained approval from OEPA. As it was explained during the meeting, you must submit all of the information requested in Section 3745-27-13 of the Ohio Solid Waste Regulations to be considered for approval.

It was agreed that after March 1, 1990, you must stop accepting fly ash until OEPA has given their approval. In the event the request is denied, you are forever prohibited from accepting fly ash at this site.

It was also agreed that you may accept hardfill (brick, rock, concrete) at this site if you so desire, and you may also continue to operate your recycling operation.

Periodic inspections of this site will be conducted to ensure compliance.

If you have any further questions concerning this matter, please contact either myself at 225-5917 or Tom Hut at 225-5909.

Sincerely,

Tracy L. Graef, R.S.
Bureau of Special Services
